engineering group

CAPABILITY STATEMENT
CNC MANUFACTURING FOR AUSTRALIAN INDUSTRY

Precision CNC Manufacturing | Large Scale Production | ISO Certified

Reliable CNC Machining & Fabrication Solutions that reduce lead time, and deliver components made to specification every time.

ISO 9001:2015 QUALITY CERTIFIED

ISO 14001:2015 ENVIRONMENT

01 WHO ARE WE

Berkeley Engineering Group delivers precision CNC machining solutions for a wide range of industries across Australia

CORE FOCUS

- End-to-end manufacturing support
- Mid to high volume production
- CNC turning and milling
- Fabrication and assembly
- Production component supply

WHY BERKELEY

- ISO 9001 Quality Certified
- Fast lead times
- 90+ years of experience
- State-of-the-Art Facility
- Reliable Communication

02 INDUSTRIES & MATERIALS

INDUSTRIES SERVED

- Mining/ Oil & Gas
- Defence
- Agriculture
- Automotive & Rail
- Hydraulics & Pneumatics
- Construction & Fastening
- Security
- Electrical

MATERIALS

- Mild Steel
- Stainless Steel
- Aluminium
- Brass
- Bronze
- Copper
- Plastics

03 MANUFACTURING CAPABILITY

CNC TURNING

- 5 Axis Turning
- Live tooling
- Broaching
- Non-concentric work
- Bar-fed, Robot-fed production

CNC MILLING

- Vertical machining centres
- 4 Axis Plate Milling
- Milling & Slotting

SECONDARY OPERATIONS

- Plate Cutting
- Cross Drilling & Tapping
- Engraving
- Welding & Assembly
- Powder coating & Plating
- Heat Treatment

04 CAPABILITY & EQUIPMENT

MACHINE CAPACITY

- Turning to ⌀700mm
- Turning to 1.6 m length
- Milling to 1.2 x 0.8 x 0.8 m
- Lifting to capacity to 1.3 tonnes
- Plasma cutting to 3m x 8m
- Tolerances to ±0.01 mm

PRODUCTION ASSETS

- 19+ CNC Turning Centres
- Multiple CNC Milling Centres
- Sliding Head CNC Technology
- Robotic CNC
- Plasma Cutting

TRUSTED BY AUSTRALIAN INDUSTRIES

HOLCIM | Vestas | CASE IH AGRICULTURE | KOMATSU | HITACHI

BE assured.
